BUILD A MINI HABITAT

In a habitat, animals need five things: food, water, shelter, air, & space.

Use the graphic organizer to research your animal and plan the materials you will use to build your mini habitat, and address all your animals needs.

CAN YOU BUILD A HABITAT THAT MEETS ALL YOUR ANIMALS NEEDS?		
Habitat Feature	Examples	My Habitat Materials
Plants or Vegetation	trees, bushes, shrubs, moss, bare (no plants)	
Type of Ground	soil, sand, rock-filled, covered in snow, leaves	
Shelter	bushes, trees, burrows, dens, nests, rock crevices	
Color	browns, greens, yellows, reds, oranges, purples	
Surroundings	prairie, mountains, lakes, rivers, streams	
Food Source	grass, trees, nuts, berries, bugs, small animals	
Other Features	paths, climbing areas, hunting areas,
